

2 July 1979

MEMORANDUM FOR: [REDACTED]
Acting Director, Program Assessment
Office, Resource Management Staff

FROM : Deputy Director of Central Intelligence

SUBJECT : Resource Management Staff Draft Study --
Intelligence Support to Air-Land Forces [REDACTED]

REFERENCE : Your memo dtd 19 Jun 79, same subject,
[REDACTED]

1. In response to your request of 19 June for comments on the draft study, the document has been reviewed by knowledgeable officers within the Directorate of Operations, the Directorate of Science and Technology, and the National Foreign Assessment Center to include the National Intelligence Officers for Warning and Conventional Forces. [REDACTED]

2. Much of what is contained in the study pertains to internal Department of Defense initiatives and decisions. We believe, nevertheless, that the Intelligence Community can make effective contributions to internal Defense programs, and vice versa, and encourage you to continue to study the issue. You will note from the attached comments, however, that the Central Intelligence Agency believes that more work must be done before this study is forwarded to the Director of Central Intelligence. We believe that a review of our comments along with those of other addressees will suggest some changes to the paper. In particular, more specificity in the recommendations and discussion of the resource implications of options would make this study more useful. [REDACTED]

Frank C. Carlucci
